

EXECUTIVE SUMMARY

A Self-motivated and highly passionate MERN stack web developer with strong expertise in web technologies. Proficient in building scalable and responsive applications, with a focus on frontend and backend development that enhance user experiences and streamline workflows. With the focus on full stack development, I aim to contribute innovative solutions that align with the growing demand for dynamic and effective platforms in today's competitive tech landscape.

KEY SKILLS

- Gained hands-on experience on **frontend development** frameworks like **React.js** and **Next.js** and experienced in state management using **Redux** and **Zustand**.
- Strong knowledge **JavaScript** and **TypeScript** for creating interactive user interfaces.
- Skilled in **backend development** with **Node.js** and **Express.js**, including API development and server-side logic.
- Experienced with relational and non-relational databases which includes **PostgreSQL** for structured data and **MongoDB** for document-oriented storage.
- Skilled in frontend design using **HTML**, **CSS** and CSS framework like **Tailwind CSS** for rapidly building modern websites.
- Proficient in **Python** with a solid understanding of object-oriented programming concepts and familiarity with data science concepts.

PROJECTS

Spotify Clone

- Tech Stack: **React.js**, **TypeScript**, **Tailwind CSS**, **Node.js**, **MongoDB**, **Zustand**.
- Developed a fully functional Spotify clone with dynamic state management and deployed for public access.
- **GitHub:** [Spotify Clone](#) | **Live Demo:** [Spotify Clone Deployment](#)

Chat Application

- Built a real-time chat application using **React.js**, **Node.js**, and **MongoDB**.

E-Commerce & To-Do List Applications

- Developed a simple e-commerce platform and a to-do list application using **React.js**, **Node.js**, and **PostgreSQL**.

EDUCATION

B.E. Electronics and Communication Engineering | 2019-2023

Loyola-ICAM College of Engineering and Technology, Nungambakkam, Chennai.

ACADEMIC PROJECTS

SMART BABY CRADLE

- Designed a cradle that swings automatically when the baby cries using servo motor.
- Integrated monitoring through **ESPcam** for mobile viewing.
- Technologies: **ESP32**, **Arduino IDE**, and various sensors.

CERTIFICATION

The Complete 2024 Web Development Bootcamp-Udemy

Completed: September 8, 2024

Certification URL: [ude.my/UC-a76caea8-d282-4d9c-b184-300717c192d5](https://udemy.com/certificate/UC-a76caea8-d282-4d9c-b184-300717c192d5)
